

## PRODUCT DATA SHEET

**XW Toughened Fiber****Product Description**

The modified fiber suitable for oil well cement is preferably classified and labeled to increase the toughness of cement stone.

**Application**

- It has no adverse effects on the thickening time, rheology and free water of cement slurry, and the toughness of cement stone is obviously improved.
- Suitable for all types of cement slurry.
- Suitable for dry blending.

**Technical Specification**

Fiber length, mm	3-6 (Short fiber)	10-15( Long fiber )
Appearance		White bundled monofilament fiber
Incremental flexural strength, %/50°C, 0.1MPa, 48h		≥15.0
Cement slurry formula: G class cement, 0.01-0.05%XW(BWOC)+0.5%USZ(BWOC), W/C:0.44, Water quality: distilled water.		

**Packing, Storage**

- Composite paper bag packaging, 25kg/bag.
- To be kept away from fire, damage and leakage in store and transportation.
- Storage life time is two years.
